toothpaste
+
whitening

whitening toothpaste

toothpaste + whitening features a powerful whitening technology developed to resurface the natural glow in your smile. the calcium carbonate in its content gently removes stubborn stains on the tooth surface while creating a protective shield against new discoloration, providing a stunning whiteness.

highlights

- it helps whiten teeth thanks to its calcium carbonate content, which effectively removes surface stains and prevents the formation of new discolorations.
-
- thanks to the potassium nitrate it contains, it reduces tooth sensitivity by forming a layer between the tooth surface and the pulp.
-
- it is enriched with sodium fluoride, which provides strong protection against cavities by fighting the effects of acids from food and beverages.

usage: brush your teeth 2 times a day, in

toothpaste
+ sensitive teeth

toothpaste for sensitive teeth

toothpaste + sensitive teeth has a special protective formula to relieve the tingling and discomfort seen in sensitive teeth. the zinc phosphate it contains creates a durable shield on the exposed tooth surface, helping to significantly reduce sensitivity to hot, cold or acidic foods.

this formula, which does not neglect tooth enamel while fighting sensitivity, is enriched with sodium fluoride. it preserves the natural mineral structure (mineralization) of the tooth, strengthens the enamel and increases its resistance to external factors. it offers a comfortable and powerful smile experience that lasts all day long.

highlights

- the zinc phosphate it contains helps reduce the feeling of discomfort caused by sensitivity by forming a protective layer on the tooth surface.
- it contains sodium fluoride, which contributes to the maintenance of tooth mineralization.

usage:brush your teeth 2 times a day, in the morning and evening. suitable for children over 6 years old and adults.

toothpaste
+
coffee & tea
smoke

anti-stain toothpaste tea & coffee, cigarette

toothpaste + coffee & tea smoke is an intense anti-stain formula developed against stubborn yellowing of teeth caused by tea, coffee and tobacco use. this special structure, powered by the zinc oxide component, helps teeth regain their natural whiteness by targeting dark stains that settle on the tooth surface.

the formula, which protects oral health while fighting stains, neutralizes acids in the mouth thanks to calcium carbonate and creates resistance to the formation of new stains by maintaining ph balance. with the support of sodium fluoride, it protects the mineral structure of tooth enamel and offers a strong and stain-free smile.

highlights

- calcium carbonate balances oral ph by neutralizing acids in oral and dental plaque.
- sodium fluoride contributes to the maintenance of tooth mineralization.
- thanks to zinc oxide, it helps reduce the appearance of stains on the tooth surface with regular use.

usage:brush your teeth 2 times a day, in the morning and evening. suitable for children over 6 years old and adults.

postbiotics toothpaste + before sleep night protection

postbiotics toothpaste + pre-sleep night protection

postbiotics toothpaste + before sleep night protection is a night-specific protection shield developed to keep your oral care going while you sleep. dentactive g® in its formula balances the oral flora throughout the night, providing long-lasting protection against the proliferation of bacteria and helping you wake up with fresher breath in the morning.

plaque and debris that accumulate on the teeth throughout the day are gently but effectively removed with the high cleaning power of rheance® one technology. enriched with natural ingredients, this special structure offers deep hygiene and repair without damaging tooth enamel in your pre-sleep routine.

highlights

- it balances the oral flora with its natural formula containing dentactive g®.
- rheance® one offers effective care with its high cleaning power.
- it is a safe and gentle alternative for daily use.

usage: brush your teeth 2 times a day, in the morning and evening. suitable for children over 6 years old and adults
